## DETAILED ACTION

### ***Claim Objections***

1. Claims 1-5 are objected to because of the following informalities: On line 1 of claim 1, the phrase "new type of driving vessels" should be corrected to read "new type for driving vessels". On line 1 of each of claims 2-5, the phrase "as per patent request 1" should be corrected to read "as per claim 1". Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:  
The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

4. A broad range or limitation together with a narrow range or limitation that falls within the broad range or limitation (in the same claim) is considered indefinite, since the resulting claim does not clearly set forth the metes and bounds of the patent protection desired. See MPEP § 2173.05(c). Note the explanation given by the Board of Patent Appeals and Interferences in *Ex parte Wu*, 10 USPQ2d 2031, 2033 (Bd. Pat. App. & Inter. 1989), as to where broad language is followed by "such as" and then narrow language. The Board stated that this can render a claim indefinite by raising a

question or doubt as to whether the feature introduced by such language is (a) merely exemplary of the remainder of the claim, and therefore not required, or (b) a required feature of the claims. Note also, for example, the decisions of *Ex parte Steigewald*, 131 USPQ 74 (Bd. App. 1961); *Ex parte Hall*, 83 USPQ 38 (Bd. App. 1948); and *Ex parte Hasche*, 86 USPQ 481 (Bd. App. 1949). In the present instance, claim 1 recites the broad recitation "high voltage", and the claim also recites "ranging from 1kV up to 10kV" which is the narrower statement of the range/limitation.

5. Claim 1 also recites the broad recitation "higher operating frequency", and the claim also recites "of 100 Hz or more" which is the narrower statement of the range/limitation.

6. Claim 1 recites the limitation "the cavitations" in line 14. There is insufficient antecedent basis for this limitation in the claim.

#### ***Allowable Subject Matter***

7. Claims 2-5 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

#### ***Conclusion***

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Veronesi et al. (US 5,185,545 and US 5,101,128), Garis, Jr. (US 5,078,628), Smith et al. (US 3,143,972) and Jerger (US 3,112,610) disclose

shrouded electric propulsor units. Sauerwein (DE 10158320A1) and Brissonneau et al. (FR 1,529,806) also disclose shrouded electric propulsor units.
